## Head Teacher's Message

As you know, in supporting our children to become responsible global citizens we always focus on the small things which each of us can do which collectively make a huge difference. Visitors from Newham Council shared with us the alarming fact that 456 schools in London have illegal levels of air pollution due primarily to traffic fumes. Our children also heard that leaving the car engine running for only one minute produces enough harmful gasses to fill 150 balloons. As a school we are promoting healthy lifestyles and encouraging our children to walk, scoot or cycle rather than use the car for shorter journeys. Please discuss this with your child. This reinforces Article 24 of the UNCRC – all children have the right to a clean environment.

Next week, filming will be taking place by a videographer hired by the Council's highways team to produce a video to promote air quality and road safety. Vehicles' plate numbers and all faces will be blurred.
